Status of the Claims

Applicant's amendment filed on 2/27/2007 is acknowledged. Claims 11, 12, 19,20,24-30 have been cancelled. Claims 31-47 have been newly added. Accordingly, claims 1-10,13-18,21-23 are pending for consideration.

Claim Rejections - 35 USC § 103

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4,6,7,9,10,13-19,22-23 are rejected under 35 U.S.C. 102(b) as being anticipated by Lane [4501030] in view of Bessler et al[5855601].

The claim as broadly worded does not distinguish over the band 48 as illustrated in figure 15 of Lane. The claims as worded are readable on the intermediate product shown in the figure below. While the frame of Lane is not specifically identified as being made of nitinol, Bessler et al teaches forming frames from a variety of materials including nitinol. To form the frame of nitinol to ensure proper final configuration in the body would have been obvious from the teachings of Bessler et al.

Art Unit: 3738

Claim 2, see the three stent cusps and commissures.

Claims 3 and 4, see orientation of stent, commissures and the angled band.

Claims 6 and 7, see fabric covering the stent in the figures. Note the claims does not preclude the band forming the fabric covering the stent.

Claims 9-10, see band 48 attached to stent.

Claims 13-19, 22 and 23, see rejection to corresponding claims supra.

Allowable Subject Matter

Claims 31-47 are allowable over the art of record.

Claims 5 and 21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
